STRONGER than the vault or its sixteen-ton door is the backing of the National Newark and Essex Banking Company.

A century ago its Cashier's orders were talismen for passage on the New York ferries. Then very little money was good money.

Today we have an account from the majority of Newark concerns employing labor extensively.

The National Newark and Essex Banking Company is a *national* bank, United States depository, also depository for state, county and municipal funds.

From a Board of Health

To Whom It May Concern.

The Edgewater Board of Health, after thoroughly investigating its merits, is pleased to recommend Ratin and Ratinin for the scientific extermination of rats and mice.

This System has been used with success by some of the larger concerns in Edgewater, and in many institutions throughout the State, and the Board feels that, in recommending its use, it will assist in making more positive the early extermination of these undesirable rodents in our community.

Sun Life Policy Holders to Receive Special Bonus

In Addition to Regular Dividends in 1929 of Approximately $17,500,000

Office of the President, Montreal, January 8, 1929

To Our Policyholders

We have just completed another wonderful year with profit earnings never before equalled. Our Directors have therefore inaugurated the principle of allowing a Special Bonus on maturing participating policies. The basis for 1929 may be summarized as follows

> On policies ten years in force, maturing by death or (on reserve dividend policies) by the expiry of the reserve dividend period, a bonus of 10 per cent. of the reserve increasing yearly to 15 per cent. on policies in force twenty years or longer; on endowments, at maturity, a bonus of 10 per cent. of the face value of policies ten years in force, increasing yearly to 15 per cent. on policies in force twenty years or longer.

Details will be given in the forthcoming annual report.

This special bonus is in addition to and independent of, the usual annual profit distribution, the scale for which, for the ninth consecutive year, will again be increased.

We congratulate our members on this happy announcement. It has been made possible only by the large profits earned on the securities selected for the investment of the Company's funds.

As ninety-five per cent. of all surplus earned by the participating assurances accrues to our policyholders themselves, they enjoy practical mutuality, combined with the enterprise and stability of stock management. The effect of this combination is evidenced by the results.

The Sign Over Your Door

Is a good thing, isn't it? You would not think of doing business without it.

But it is only seen by those who pass your way.

If you could put a sign where everyone could see it would it interest you?

THE CITY DIRECTORY

Is where people look for you when they want to do business. You should make it easy for them to find you, by putting such information as a buyer wants, in the Directory properly indexed under all headings where he might look for you.
